SUMMARY

Full Stack Web Developer with hands-on experience building scalable, user-focused web applications using **React.js, Flask, and PostgreSQL**. Proven ability to design and integrate RESTful APIs, optimize performance, and deliver responsive, high-quality interfaces. Strong foundation in problem-solving and clean code practices, with a track record of developing real-world applications that improve user engagement and system efficiency. Passionate about building impactful digital solutions in fast-paced, collaborative environments.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
- **Backend:** Python, Flask, REST API Development
- **Database:** PostgreSQL
- **Tools & Workflow:** Git, GitHub, Git Flow, Postman

TECHNICAL PROJECTS

NextGen Foodcourt| Multi-Vendor E-Commerce Platform | 📄github.com/stephie-spec/nextgenfoodcourt

Designed and developed a scalable full-stack e-commerce platform enabling multiple vendors to manage products, orders, and customer transactions efficiently.

- Engineered a scalable **full-stack e-commerce platform (React, Flask, PostgreSQL)** with dynamic vendor dashboards, real-time product management, and optimized performance across devices
- Designed and integrated secure **RESTful APIs** for orders, payments, and inventory, alongside **JWT-based authentication and role-based access control**, enhancing system security and data integrity
- Developed and implemented a **QR code-based order tracking system**, automating order verification and reducing manual lookup time while improving fulfillment accuracy and operational efficiency

Safiri Auto | Travel-App | 📄github.com/billotiende-droid/Safiri-Auto

Developed a full-stack car hire platform that connects users with available vehicles in real time, similar to ride-hailing systems.

- Engineered a scalable **full-stack car hire platform (React, Flask, PostgreSQL)**, enabling real-time vehicle search and booking, **streamlining rental workflows and enhancing user experience**.
- Designed and integrated RESTful APIs for vehicle availability, booking logic, and user transactions, improving system reliability and data flow efficiency.
- Implemented location-based booking workflows and real-time updates, enhancing user experience and streamlining end-to-end reservation processes.

EXPERIENCE

Gadget Store KE Nairobi, Kenya
Freelance Full Stack Developer November/2025 - Present

- Developing a full-stack solution using **React (frontend) and Flask (backend) with PostgreSQL**.
- Improved UI/UX with responsive design, increasing usability across devices.
- Integrated product catalog, cart functionality, and order management system.
- Collaborating with clients to gather requirements and translate them into scalable technical solutions.
